

# ~ Heil Pro-7 Headset ~

Includes Kenwood Cable Set

Heil Sound PRO 7 Headsets are aviation-style headsets that are designed for exceptional comfort and performance. A true dual channel, stereo headset, the PRO 7 Series feature an audio balance control which allows the user to adjust the level of the left earphone to match the right. A unique phase-reversal switch greatly helps the listener "dig out" weak signals. These headsets will help you work the DX!

The flexible gooseneck mic boom on PRO 7s may be rotated for use on either the right or left ear. Two versions are available, depending on whether you require an electret or dynamic microphone element. Heil PRO 7 headsets are also available in black, red, and blue, and will work with current AD1 series adapter cables and accessories.

#### Features:

- \* The most comfortable to wear headset... ever
- \* Adjustable stainless steel headband
- \* Specially designed foam-gel ear pads provide 26 dB PNR outside noise reduction - an extra set of ear pads are included
